

Coaxial DVR Surge Protection

NLightning - We anti-lightning!

OVERVIEW

DVR is the most commonly seen surveillance equipment that connect video camera through coaxial cable to monitor or record events. It generally transmit NTSC or PAL video format by analog signal in a relatively lower data rate.

SOLUTION

- NLC2K01SMS
- NLC4532-090
- NLC03CI

COMPLIANCE

- IEC61000-4-2
- IEC61000-4-5
- ITU-T K.21

BENEFIT

- Superior surge capability
- Low residual voltage
