

Coaxial HD-SDI Surge Protection

NLightning - We anti-lightning!

OVERVIEW

HD-SDI is an improvement of traditional NTSC DVR, it provides high definition video through coaxial cable by higher data rate. This serial interface was defined by SMPTE standard. It provides an upgrade option for existing NTSC DVR without renewing the cable connection.

SOLUTION

- NLC4532-090
- NLC03CI

COMPLIANCE

- IEC61000-4-2
- IEC61000-4-5
- ITU-T K.21

BENEFIT

- Superior surge capability
- Low residual voltage
