

SLIC Line Surge Protection

NLightning - We anti-lightning!

OVERVIEW

The line card in a subscriber loop carrier is called a subscriber line interface card (SLIC). It commonly been used to interface the twisted pair cable of a POTS local loop with the public switched telephone network (PSTN), and provide functions such as A/D conversion or connection of non-traditional telephony networks.

SOLUTION

- NLC3500SC
- NLC61089B

COMPLIANCE

- IEC61000-4-2
- IEC61000-4-5
- ITU-T K.21

BENEFIT

- Quick response
- Low residual voltage
