

VGA ESD Protection

NLightning - We anti-lightning !

OVERVIEW

To be a graphic interface, VGA has existed for a long time. Accompany with higher computing ability of chipset, this legacy interface hasn't been knocked down. Lots modern graphic IC remain support VGA interface, and ESD protection should be taken in the same weight with other high speed I/O. Though it doesn't require

SOLUTION

- NLSE05-4

COMPLIANCE

- IEC61000-4-2

BENEFIT

- Criteria A solution
- High reliability
