

Declaration of RoHS Exemption

Nlightning Technology hereby certifies that, to the best of its knowledge and based on information obtained from its suppliers, the products belonging to the package series below comply with the applicable requirements of Directive 2011/65/EU of the European Parliament and of the Council on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS), as amended.

Nlightning Technology further declares that certain products may contain lead (Pb) above the maximum concentration value specified in Annex II of Directive 2011/65/EU. Such lead content is used only in applications covered by applicable exemptions under Annex III of Directive 2011/65/EU, as amended.

The applicable RoHS exemptions include, where relevant:

1. Annex III, Exemption 7(a)-I
2. Annex III, Exemption 7(c)-V

Nlightning Technology confirms that the above exemptions are applied only where technically applicable to the relevant product design, material composition, and manufacturing process.

This declaration is issued based on supplier declarations, available material information, technical documentation, and/or test reports where applicable. The complete list of RoHS exemptions is not reproduced in this declaration and should be referred to directly through Annex III of Directive 2011/65/EU, as amended.

The applicable products are identified by Nlightning Technology package series as listed below. The listed package series are confirmed to use material structures and manufacturing processes corresponding to the RoHS exemptions stated above, unless otherwise specifically declared.
